ALASTAIR SLOAN

Capital Project Management and CI Specialist

Alastair brings over twenty years of senior leadership in Project Engineering and Management, with expertise spanning capital project management, technical design, and packaging optimisation. He is recognised for his strategic acumen and hands-on approach, making him a valuable asset for organisations seeking comprehensive Capex project management.

His strong interpersonal skills and focus on transformative project leadership ensure timely, budget-conscious, process-compliant and high-quality project delivery in the manufacturing (especially food) industry.

A hands-on approach to project delivery and a comprehensive network of material and equipment suppliers ensure expedited project delivery to the highest possible standard.

Notable achievements include managing the installation of a unique food manufacturing line (A\$7.9m), consolidating plants (A\$4.2m), and managing 12 business-critical manufacturing lines in FMCG.
